Leading the delegation of mothers from New York will be Lisa Rudley whose child was the victim of forced vaccinations. Text of the radio commercial:

(Louise): As the mother of children who were harmed by government mandated vaccines, I thank Dr. Murray Sabrin for his campaign to Legalize Freedom for Parents.

New Jersey's mandated vaccination schedule has increased 400% in 25 years and is the most aggressive in the U.S. with babies getting 27 shots by 15 months of age and 41 shots by sixth grade. We're getting record numbers of kids with allergies, asthma, diabetes, MS, ADHD, speech delays and autism.

Mandated means no choice.

Nationwide, forced vaccinations are out of control as New York tries to outdo New Jersey.

Do you really want politicians making your health care decisions? Take action now. Dr. Murray Sabrin supports parents' right to choose. Parents need to support Dr. Murray Sabrin tomorrow in the June 3rd Republican Primary for US Senate.
