

FEARLESSPARENT™

FOCUS *for* HEALTH

PRESENT:

*A Conversation about
Childhood Vaccination*

1/24/2017

TWO RIVER THEATER
21 BRIDGE AVENUE, RED BANK, NJ

DEAR FEARLESS PARENTS & FRIENDS,

We are delighted to kick off the new year with this powerful expression of like-minded community. Thank you, our tribe of savvy, inquiring, and maverick parents, professionals, and small businesses who are passionate about thriving children, evidence-based medicine, and the freedom to make our health, wellness, green living, and holistic parenting choices.

There are many of us. Nearly 400 of you bought tickets to attend an event that sold out three months ago. What is prompting hundreds of busy people to drive to Monmouth County on a cold Tuesday evening?

We have questions. If vaccines are safe and effective, why must people be forced to get them? Why does the federal government compensate for catastrophic injury and death? Why can't doctors and vaccine makers be sued? How does herd immunity work, especially with so many unvaccinated adults? Why is there so little safety research? Why do we punish researchers who investigate? Who's vulnerable to vaccine injury? What do we understand about the mechanisms of vaccine injury? And how exactly do we know that vaccines have saved millions of lives?

There are very few answers. Vaccines are a multibillion dollar industry with aggressively positive PR (they're great!), with coercive government policy (they're mandatory!), with zero tolerance for inquiry (the book is closed!), and with frank contempt for the non-compliant (they're irresponsible, selfish, dangerous, stupid, anti-vaccine!).

We want to learn about vaccines in community. We are concerned. This is why we are here. These are difficult questions. We are eager to participate in an honest and open conversation that supports informed and responsible decision making -- individually, to do right by our children; and collectively, to model the kind of respectful dialogue that our society needs -- for the health of all.

Thank you for coming. Please keep in touch with us. We welcome your feedback and ideas.

Love, Fearless Parent & Focus for Health 

PROGRAM:

5:00 pm	Community Fair & Silent Auction*	Lobby
7:00 pm	Welcome	Louise Kuo Habakus
	Keynote	Robert F. Kennedy, Jr, Esq Brian Hooker, PhD
	Humanitarian Award	Focus for Health Board of Directors
	Conversation with Parents	Robin Stavola Sarah Bridges, PhD
8:00 pm	Conversation with Panelists	Louise Kuo Habakus Lawrence Palevsky, MD Kelly Brogan, MD Sayer Ji Robert J. Krakow, Esq
9:00 pm	Q&A	All

* Silent Auction checkout at 7:45pm & 9:00pm in the Lobby.

EVENT HOSTS

AND

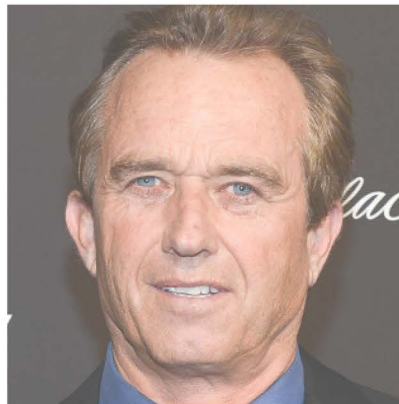

SPEAKERS

LOUISE KUO HABAKUS — founder, Fearless Parent™, Center for Personal Rights, and Health Freedom Action; bestselling author, *Vaccine Epidemic*; board member, Focus for Health Foundation; advisory board member, GreenMedInfo, Documenting Hope Project, SHE Living TV; former Bain consultant and C-level marketing executive; two degrees from Stanford University; two children; FearlessParent.org.

BARRY SEGAL — successful entrepreneur; philanthropist and founder, Focus for Health Foundation (ensuring individuals have access to information necessary to make optimal health decisions for their families) and Segal Family Foundation (empowering communities in Sub-Saharan Africa); six children, 15 grandchildren, two great grandsons; plays a mean game of tennis; FocusforHealth.org

ROBERT F. KENNEDY, JR., ESQ — law professor, Pace University; founder, World Mercury Project; activist specializing in vaccine safety and environmental issues; author, *Thimerosal, Let the Science Speak*; radio host; degrees from Harvard, London School of Economics, University of Virginia; six children; RobertFKennedyJr.com.

BRIAN HOOKER, PHD, PE— biology professor, Simpson University; senior process consultant, ARES Corporation; bioengineer and team leader, DOE Genomics, Pacific Northwest National Laboratory; co-inventor for five patents; author, 60 peer-reviewed scientific studies; degrees from Cal Poly and Washington State University; one child.

SARAH BRIDGES, PHD — neuropsychologist; NIH pre-doctoral fellow; mother to Porter who sustained catastrophic vaccine-induced brain damage at four months old (government-compensated); author, *A Bad Reaction: A Memoir*; degrees from Wesleyan University and University of Minnesota; four children; SarahBridges.com.

ROBIN STAVOLA — mother of five year-old Holly who died from vaccine-induced brain inflammation following mandatory vaccination for kindergarten (government-compensated); worked to pass Holly's Law (serological exemption) in NJ; two children; HopefromHolly.com.

ROBERT J. KRAKOW, ESQ — litigator specializing in medical malpractice, especially involving vaccine injury, birth injury, and children with disabilities; former prosecutor, New York County DA's office; long-time autism and vaccine safety activist; board member, Center for Personal Rights and Focus for Health; two children; KrakowLaw.com.

KELLY BROGAN, MD — board-certified, holistic, functional medicine-based psychiatrist; *New York Times* bestselling author, *A Mind of Your Own*; co-editor, *Integrative Therapies for Depression*; Medical Director, Fearless Parent; degrees from MIT and Cornell Medical School; two children; KellyBroganMD.com.

SAYER JI — founder of GreenMedInfo.com; reviewer, *International Journal of Human Nutrition and Functional Medicine*; co-founder and CEO, Systome Biomed; Vice Chairman, National Health Federation; Steering Committee, Global Non-GMO Foundation; advisory board member, Fearless Parent; two children; GreenMedInfo.com.

LARRY PALEVSKY, MD — board-certified, holistic pediatrician in private practice focused on "whole child" wellness; pediatric residency at Mt. Sinai; fellowship training at Bellevue Hospital; former president, American Holistic Medical Association; degrees from Vassar and NYU School of Medicine; DrPalevsky.com.

With special thanks to Melanie Dragone and Amanda Smyth for their masterful event planning skills and Biliانا Coleman for her magical photography and design talents.

“There’s a dialogue that’s not taking place on the front lines of parenting and pediatrics, and the silence is deafening. There are unanswered questions about vaccine safety and the epidemic rates of brain damage. There is no anti-vaccine controversy; rather, it’s a social movement that’s demanding vaccination choice. Empowered parents and emerging science are sounding the death knell for old paradigms of one-size-fits-all medicine.”
